

CAL FIRE NEWS RELEASE

California Department of Forestry and Fire Protection

TIME:4:00PM

RELEASE DATE: December 10, 2017

EVACUATION ORDERS LIFTED ON THE LILAC 5 FIRE

All evacuation orders have been lifted with some restrictions to the following areas.

For the following locations, the areas will remain closed to everyone except to residents only. All residents must show identification to get in the area:

- Rancho Monserate Country Club, 4650 Dulin Rd., Fallbrook
- The area between 5200 Olive Hill Rd. and 5800 Olive Hill Rd., Fallbrook

Please be patient, at this time there are still areas that services have not been restored. The utility companies are diligently working around the clock to restore services in and around the fire damaged areas. Thank you for understanding as you can imagine the amount of damage that was sustained to the infrastructure.

SAFETY MESSAGE- As residents return home, we remind you to stay vigilant. If you see electrical wires on the ground, stay clear and contact SDG&E immediately. Trees and poles with deep charring, particularly if still smoking, should be considered hazardous. Please drive slowly and yield to emergency personnel and utility companies in the area.

As you re-enter your property and evaluate damage, be aware that hazardous conditions may exist, particularly if a residence or out-building has burned. Hazards may include asbestos, heavy metals, by-products of plastic combustion and various other chemicals. Inspect your property for fire or fire damage on the outside first. When you have secured safety outside your home, check inside for fire or fire damage. If you find any utility damage, contact SDG&E.
